READ CAREFULLY BEFORE FIRST USE

You have bought a unique piece of furniture made of natural teak wood. Teak is a closed grained hardwood with a natural high oil content. Fluctuations of temperature and humidity may cause oil surfacing. This is normal and will not affect the durability or strength of the wood. To avoid stains on the cushions on your new teak furniture we advise you to climatize your furniture before using it by placing the furniture in the full sun for at least 14 days without cushion set. Depending on the finish of your furniture you can then either immediately start using it, or apply a protective treatment.

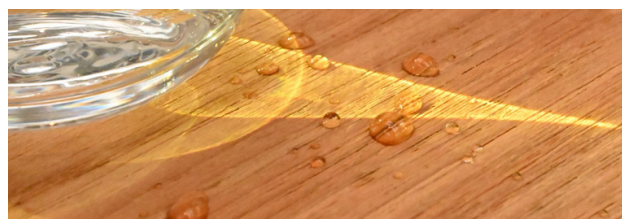

Teak nero

Treated with Manutti Teak Nero

Saturates teak to make it impenetrable for liquids and dirt. To keep your furniture in exquisite condition, we advise you to maintain it every six months with our Manutti Care Line Kit for Teak nero.

Teak natural

Treated with Manutti Teak Protector

Saturates teak to make it impenetrable for liquids and dirt. To keep your furniture in exquisite condition, we advise you to maintain it every six months with our Manutti Care line: Teak Protector. To maintain or restore your furniture's original new colour, we recommend using the Manutti Care line: Teak Colour Refresher as well.
